

# the HAArt project

amplifying art to combat sexual  
*Harassment Abuse, & Assault*

## ABOUT THE PROJECT

What began as a virtual art exhibit and artist spotlight via YWCA Lancaster's social media pages during April 2021's Sexual Assault Awareness Month (SAAM) is now a year-round project.

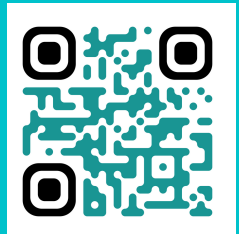

Anyone impacted by sexual trauma is encouraged to create and share expressive art related to their experience to increase awareness, honor survivors, and build community by breaking the silence that often accompanies the experience of sexual harm. Art will be featured every April during SAAM in a virtual social media art exhibit.
